Re: License 3165 (Application 27)

Dear Joe:

This is to inform you that we have met with the Department of Fish and Game regarding its protest against the approval for the petition to change point of diversion under the above license.

During the meeting we obtained additional information from the Department regarding its screening requirements, and Mr. Ken Lux, who is doing the design for the project, will submit plans for Department approval. It is our understanding upon approval of the plans, the Department will advise you that the conditions of its protest have been met.

At the present time, we anticipate that everything should be resolved by February 1, 1982, which is the date we discussed earlier.

Please call if you have any additional questions.

Sincerely,

D. E. Kienlen
